- **Frameworks & Libraries:** React, Node.js, Express.js, Tailwind CSS, React Native, GSAP.
- **Tools & Platforms:** Visual Studio Code, Eclipse, GitHub, MongoDB, Postman, Swagger.
- **Languages Known:** English, Hindi

## EXPERIENCE

**Web Developer Intern**  
*TEKYZ TECH PRIVATE LIMITED*

Aug 2025 - Oct 2025  
Remote

**Technologies Used:** Python, Flask, OpenAI Api, Swagger, React, Tailwind CSS.

- Contributed to the **Website Integrated AI Chatbot Project**, supporting the design and development of an intelligent chatbot capable of answering user queries based on website content.
- Implemented chatbot logic using **OpenAI APIs**, with backend support in **Python/Flask** and frontend integration using **React, JavaScript, Tailwind CSS**.
- Assisted in processing and structuring website data to enable **context-aware** and accurate responses.
- Collaborated on improving chatbot usability and responsiveness within a web environment.

## PROJECTS

**My Portfolio** ([github.com/yousuf-uddin/Portfolio](https://github.com/yousuf-uddin/Portfolio))

Jul 2025

**Technologies Used:** React, Tailwind CSS, GSAP, JavaScript, GitHub.

A personal portfolio website showcasing professional background, skills, and projects.

- Integrated GSAP animations for smooth user experience and visual appeal.
- Organized project sections with clear navigation and interactive UI elements.
- Hosted the portfolio on GitHub Pages for easy access and sharing.

### **Technologies Used:** React, Tailwind CSS, React Hooks, JavaScript, GitHub.

A react-based web application for managing, storing, and sharing recipes.

- Developed the front-end using React, ensuring a responsive design that works seamlessly across all platforms.
- Utilized local storage to store and retrieve recipe data, ensuring fast and reliable access.
- Added functionality for users to upload images, rate recipes, and add comments.
